**Mrs. Yoi-sung Xio**

**New Beginnings Facial and Body Treatment**

411 South Estate Drive, Marietta, Georgia, 20543

Dear Mrs. Xio,

I am very eager to be applying for the esthetician position you have available at New Beginnings Facial and Body Treatment. I was referred to you by your current employee, Amber Williams, who would also like to serve as a personal reference of mine. As a graduate of the Beauty Institute of Atlanta, I possess the educational background and experience needed to fulfill the requirements you have posted for this job. I spent several semesters working alongside several esteemed plastic surgeons.

I am currently employed with Fresh Looks, and have over seven years experience working as an esthetician. At Fresh Looks, my responsibilities include operating treatment equipment such as facial steamers, microdermabrasion machines, paraffin heaters, LED light therapy machines, and microcurrent machines. I also administer a number of treatments such as scalp massages, body scrubs and wraps, pore cleansings, and specialized treatments like micro-needling and laser therapy.

I am proud to say that during my time with Fresh Looks, I had the opportunity to conduct a clinical trial alongside our top dermatologist, Dr. Ray Welsh. We closely studied the effects of a relatively new drug used to clear acne in teenagers and young adults. I was in charge of developing a daily skin care routine to follow in conjunction to the drug. We found it to be a great success, and 85% of clients' experienced clearer skin within the first month of the treatment plan. I had the opportunity to present these findings with Dr. Welsh at the Eastern Dermatology Conference.

As you read through my resume, you will find that I possess the ability to think quickly and function highly in a fast-paced environment. My vast knowledge related to this line of work allows me to effectively evaluate patients and diagnose them accurately. I am a very self motivated person, and I am able to work individually, as well as be a team player. My time management and organizational skills are superior, and I am a great communicator.

I highly anticipate hearing from you, as I am confident you will find me to be an ideal candidate for this position. I have a true passion for helping people, and I look forward to bringing my

expertise to you and your thriving company. I appreciate your time, and I thank you for this opportunity.

Sincerely,  
Carl Wayne
